Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, BE

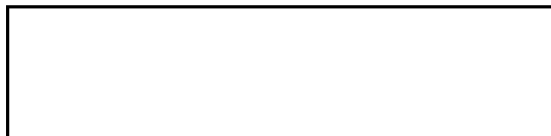

DATE: 11 Sep 52

FROM :

SUBJECT: Training Program Memorandum 28 Aug 52

The program has good possibilities for increasing analyst efficiency. However, the lectures included elementary generalizations and history (e.g., factors of production, Lenin's seizure of power, etc.), which should be omitted from future courses.

It is suggested that the program should include area analysis tailored to the various branches of FDD and comparison of economic, political, cultural, and other patterns in the USSR and the Satellites. It is also advisable to experiment with seminars in which the students exchange information among themselves.
